Skills

HTML, CSS, Javascript, Git, React, Typescript, Tailwind CSS, Bootstrap, Jira, CodeceptJS, Agile.

Experience

Prosperix Innovation Pvt.Ltd. | Junior Software Engineer

Jan 2023 - PRESENT, Remote

- Integrated RESTful APIs and ensured efficient state management
- Utilized Git for version control and collaborated on code through Github
- Collaborated in agile teams using Jira for task tracking & sprint planning
- Developed a comprehensive user details form using react-hook-form
- Converted **Figma designs** into fully functional & **pixel-perfect** UI components
- Implemented **reusable components** and optimized frontend performance for faster load times
- Advocated for **adoption of Tailwind CSS** over **styled components** after identifying performance issues, leading to performance optimization within the company
- Worked closely with **backend developers and UI/UX designers** to enhance user experience.
- Automated various development and testing flows to improve efficiency & reduce manual effort

Education

Maratha Mandal Engineering College

Aug 2015 - Jul 2019, Belgaum
